PROFESSIONAL SUMMARY

Performance-driven Infrastructure professional with **7+ years of experience** specializing in Cloud Operations, SRE, and DevSecOps. Expert in architecting high-scale platforms and transitioning legacy manual environments to declarative patterns using **Infrastructure as Code (IaC)**. Leverages deep **MERN Stack** expertise to optimize application architecture and minimize latency. Proven track record of improving resolution speeds by 25% and maintaining **99.9% uptime** for enterprise clients through advanced automation.

TECHNICAL SKILLS

Cloud & Platforms:	Microsoft Azure, AWS, Azure DevOps, GitHub Actions, Jenkins
IaC & Configuration:	Terraform, Ansible, Helm, YAML
Containers & Orchestration:	Kubernetes (K8s), Docker
DevSecOps & Security:	Tfsec, TruffleHog (Secret Detection), TFLint, Super Linter
Observability:	Datadog, ELK Stack, Prometheus, Grafana
Scripting & DB:	Python, Bash Scripting, SQL Server, MongoDB, Node.js

PROFESSIONAL EXPERIENCE

Softbeads Private Limited — Oct 2019 – Present

Software Implementation & Automation Engineer

- **Infrastructure as Code (IaC):** Spearheaded the transition from manual "Click-Ops" provisioning to automated deployments using **Terraform** and **Ansible**.
- **CI/CD & DevSecOps:** Architected secure CI/CD pipelines in **Azure DevOps** and **GitHub Actions**, integrating **Tfsec** and **TruffleHog** for automated security scanning.
- **System Reliability (SRE):** Managed end-to-end server operations and uptime (99.9%) using **Datadog/ELK** for full-stack observability, improving resolution speed by 25%.
- **DataOps Automation:** Developed custom SQL automation scripts to manage complex database schemas and reporting lifecycles, reducing manual operational overhead by 30%.
- **Process Engineering:** Acted as a bridge between client operations and development teams to resolve high-priority software bottlenecks through automated playbooks.

Mrianso Software Creation — Apr 2018 – Oct 2019

Technical Support Engineer

- **SDLC Exposure:** Collaborated with developers to document software bugs and system requirements, gaining foundational experience in automated deployment cycles.
- **SQL Operations:** Managed complex SQL database customizations and client reporting, optimizing backend logic for enterprise-level transport ERP systems.

PROJECTS & CERTIFICATIONS

- **JobSkills SaaS Platform:** Built a skill-matching platform using **n8n workflows**, JWT authentication, and AI-powered resume parsing.
- **Talk Chat App:** Developed a real-time chat system using **React.js, Node.js, and Socket.io**.

- **Certifications:** AWS Solutions Architecture (Job Simulation), SQL (Advanced) - HackerRank, JavaScript (Intermediate) - HackerRank.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University, Lucknow **2013 – 2018**

Bachelor of Technology (B.Tech) in Computer Science | 73%
